An exciting opportunity to enhance your existing qualifications or diversify into a new career path. Allowing qualified participants to step into a leading role within an un-serviced area of the health industry. Endorsed by the Australasian Lymphology Association this accredited training course is suitable for Physiotherapists, Occupational Therapists, Osteopaths, Registered Nurses, Medical Practitioners, Massage Therapists, Speech Pathologists and Podiatrists.

Comprehensive program consisting of 100hrs online with 2 days face to face practical study. Delivering the most up-to-date research findings to treat and manage lymphoedema, lipoedema and oedema related conditions. Patient focused providing a hands on approach with lymphoedema and lipoedema patients presenting at all different stages.

Course structure will consist of;

- Different forms of MLD techniques
- Bandaging options and application
- Compression garments
- Technology and its uses
- Garment measuring
- Skin care and hygiene
- Assessment and Management with patient involvement.

Your presenter, Sue Butcher, is an accredited training provider registered with the Australasian Lymphology Association. Sue has worked in the health industry for over 25 years. Including managing her own lymphoedema clinic and mentoring those just starting in Lymphoedema. Sue has presented internationally and nationally including;

- Australasian Lymphology Association conference
- Massage and Myotherapy Australia
- Australian Phlebology Association
- Guest panellist on the Medical Online Hub both internationally and nationally.
- Guest presenter at RMIT and various Tafe colleges
- Presenter/workshop at Melbourne Dermal Clinician conference
- Finalist at the International Lymphoedema Framework Poster Presentation at Denmark.
- Recipient of the Australasian Lymphology Association service award for contribution to the organisation.
